An act to amend Section 12025 of the Fish and Game Code, relating to controlled substances.

LEGISLATIVE COUNSEL'S DIGEST

SB 165, as amended, Monning. Production or cultivation of a controlled substance: civil penalties.

Existing law imposes various civil penalties for violations of specified provisions of the Fish and Game Code in connection with the production or cultivation of a controlled substance. Existing law requires all civil penalties collected to be apportioned as provided, including 30% of the funds to be distributed to the investigating agency to be used to reimburse the cost of any investigation directly related to the violations described in these provisions.

Existing law authorizes the Department of Fish and Wildlife to impose those civil penalties administratively, subject to specified requirements relating to complaint and hearing procedures, among other things. Existing law authorizes the department to adopt regulations to implement these provisions and requires the administrative penalties collected to be apportioned in a specified manner.

This bill would impose various additional civil penalties, subject to these provisions, for violations of specified provisions of the Penal Code and the Public Resources Code, in connection with the production or cultivation of a controlled substance.

32 a complaint to any person or entity on which an administrative
33 civil penalty may be imposed pursuant to this section. The

20 petition for a writ of mandate with the superior court within 30
21 days of the date of service of the final order. The administrative
22 penalty shall be due and payable to the department within 60 days
23 after the time to seek judicial review has expired, or, where the
24 party did not request a hearing of the order, within 20 days after
25 the order imposing an administrative penalty becomes final.

26 (5) The department may adopt regulations to implement this
27 subdivision.

28 (f) All administrative penalties imposed or collected by the
29 department for a separate violation pursuant to this section shall
30 not be considered to be fines or forfeitures, as described in Section
31 13003, and shall be deposited into the Timber Regulation and
32 Forest Restoration Fund, created by Section 4629.3 of the Public
33 Resources Code, to repay any unpaid balance of a loan authorized
34 by subdivision (f) of Section 4629.6 of the Public Resources Code.

36 pursuant to this section shall be apportioned in the following
37 manner:

39 and Forest Restoration Fund for grants authorized pursuant to
40 subdivision (h) of Section 4629.6 of the Public Resources Code,

2 remediating former marijuana growing operations.

3 (2) Fifty percent shall be deposited into the Fish and Game
4 Preservation Fund.
